## About

### **UCE** Academy

was founded in 2022 by Me Pascaline MELINON and Mr. Mikael HAILU after years of working in the Digital Assets and Blockchain industry (DAB).

Me Pascaline MELINON is an attorney based in Paris (France). She has been working in the DAB since 2016. She was faced with the dire difficulty of hiring young legal practitioners who have received academic and relevant professional experience in the Digital Assets and Blockchain environment.

The inexistence of academic and professional training led her to create Universal Crypto Education, a Non-profit Organisation with the purpose of furthering and promoting education across the global in respect of Digital Assets and its relying technology: the Blockchain.

Information on Digital Assets and the Blockchain is fragmented.

It appeared necessary to gather global experts in their specific domain of expertise to provide a unique set of training and certifications, with the overall purpose of using Digital Assets and the Blockchain to resolve the challenges the world is facing.

## **A NEW WAY OF LEARNING**

### ●●● **Individual**

We have partnered with Higher Education Institutions across the globe to offer to their selected students the possibility to join our selective training programs for 2023.

The selected students will have the possibility to gain academic and professional knowledge in order to further their career in the Digital Assets and the Blockchain industry.

The course will debunk the myths and discuss the possibilities and the global challenges.

### **# 25** Places **maximum** **Worldwide**

The student will be exposed to world class experts in a global setting with students from all over the world.

It is a unique opportunity to be a step ahead and start building a professional network.

## A SECTOR-BASED APPROACH

## **PUBLIC INSTITUTIONS**

### ● ● ● **Institutions**

Digital Assets and the Blockchain are impacting diplomatic relations and international trade. By doing so they are unavoidably and necessarily paving the way for new policies, soft and hard laws.

### ● ● ● **Information is power.**

The Digital Assets and the Blockchain industry is subjected to lobbying both overt and covert.

### **# BEPSOKED SESSIONS AND CONSULTING**

**Analysis is key.** ● ● ●

**Exclusively on demand.**
